Governor announces 189 new jobs in Hampton; city welcomes \$1.87 million investment

Nov. 14, 2016 - Gov. Terry McAuliffe announced today that Maximus, a contractor of program management and administrative services for government agencies, will invest \$1.87 million to establish a customer support center in Hampton. The new operation will support state and federal contracts across the country. Virginia successfully competed against Pennsylvania and Texas for the project, which will create 189 new jobs.

“When a Virginia-headquartered company like Maximus chooses to again invest in the Commonwealth for its next operation, it is a tremendous testament to our unparalleled business advantages,” said McAuliffe. “We are proud to welcome Maximus to the City of Hampton and Hampton Roads, which boasts a strong workforce, infrastructure and business climate. Diversifying our industries is critical, and Maximus is a valued corporate partner contributing to our ongoing success in building a new Virginia economy.”

Maximus, with more than 16,000 employees worldwide, has its headquarters in Reston and another office in Falls Church in Northern Virginia. Other sites are in Canada, the United Kingdom, Saudi Arabia and Australia.

“Hampton’s workforce is a perfect match for Maximus,” said Mayor Donnie Tuck. “We have military spouses and those who transition from the service every year. They have a dedicated work ethic and a strong desire to serve a company that is passionate about its mission to provide services.”

Since 1975, Maximus has operated under its founding mission of Helping Government Serve the People, enabling citizens around the globe to successfully engage with their governments at all levels and across a variety of health and human services programs. Maximus delivers innovative business process management and technology solutions that contribute to improved outcomes for citizens and higher levels of productivity, accuracy, accountability and efficiency of government-sponsored programs.

The Virginia Economic Development Partnership worked with the City of Hampton to secure the project for Virginia. Maximus is eligible to receive state benefits from the Virginia Enterprise Zone Program, administered by the Virginia Department of Housing and Community Development. Funding and services to support the company’s

employee training activities will be provided through the Virginia Jobs Investment Program.
