Budget Highlights

- Total City approved budget is, $431,009,323 a 0.52% increase over FY 2012.
- The City’s General Fund budget is $239,157,704, a 1.94% decrease or $4.7 million less than FY 2012. To balance the budget, a combination of tax and fee increases, higher attrition and retirement incentive savings, reallocation of allocable positions to the special revenue funds and declining debt service expenses are included in this approved budget.
- Program reductions totaling $2.11 million (net loss of 9 full-time general fund positions) have been recommended and approved by City Council based on the results of citizen polling (on-line, citizen meetings, and random scientific based telephone survey) and many hours of program/service reviews by the Budget Review Committee.
- A combination of increases in tax and fee adjustments included in the budget are the meals tax, cigarette tax and motor vehicle licensing fee along with dedicated fees for permit technology enhancements and fire services permits and fees.
- The Real Estate Tax rate remains unchanged at $1.04 per $100/assessed value for the 5th straight year. The average Hampton household will experience a 6% decrease in real estate taxes.
- Some of the program reductions/restructuring recommendations as supported by a clear majority of the citizen polling efforts are:
  1. Reducing printed materials and utilizing the web as a primary source of communication
  2. Restructuring of some of the city’s core services which includes the Teen Center, Youth Violence Prevention and the Citizen’s Unity Commission.
- Funding for Fire, Emergency Services, Police and Public Works services were largely held constant due to the critical nature of these services.
- This budget includes the overhaul of Land Development Services based on a review of best practices and a reengineering study conducted with the help of businesses and residential customers.
Mandates imposed by the Environment Protection Agency (EPA) and the Virginia Department of Environmental Quality (DEQ) also require increases in Stormwater and Wastewater fees. Funding for these mandates were aligned with the Citizens’ Waterways Committee Report.

Funding is included for the City’s share of increased health and life insurance premiums; pension contribution increases as required by the actuarial study; a salary offset for the General Assembly required VRS employee contribution shift; and increased State mandated line of duty payments for public safety personnel.

The employee compensation package includes monetary and non-monetary benefits: a one-time performance payment up to $1,000 for city employees based on an annual merit rating; four “personal days” to be used in the fiscal year; restoration of the City’s tuition assistance program; and, access to community fitness centers.
